To: Trip.com Group, Visa & Insurance Business Unit · Attn: Hazel Huang

Annual software subscription, USD 99,600 per year, renewable every year: your section 2.1 lines as the platform and dataset component, plus the service components below.

1 · PLATFORM AND DATASET on your section 2.1 lines, per year

YOUR LINE	WHAT IT DELIVERS	USD / YEAR
Base setup and storage	P0 Information Quality Control Backend (25-field checklist, confidence grades, five-stage correction queue, change log, Excel export) and P1 Visa Information Query Tool (13 document types, 7 purposes, deep links). Server, database and the Docker install package.	9,000
Version rollout, base	P2 Display pages in English, Simplified and Traditional Chinese with special policy notes, P3 AI Q&A Assistant (multi-turn, bilingual, every exchange logged), operations manual, data caliber specification and acceptance documents for all five stages.	10,000
PLUS version, 18 sites at 1,700	The dataset at PLUS depth for every station: every destination, 25 fields per record, every record bound to an official page with a verbatim quote. Today 1,360 records, 99.9% complete, zero low-confidence.	30,600
Platform and dataset, per year		49,600

Priced exactly on your section 2.1 estimate, USD 49,600, as the annual platform and dataset component. The whole system is licensed as a yearly subscription, because a visa database is only as good as its last check.

2 · SERVICE COMPONENTS USD 50,000 per year

INCLUDED IN THE SUBSCRIPTION	USD / MONTH	USD / QUARTER
Licence and 24/7 maintenance of the four modules: a dedicated engineer on call around the clock rules on every dispute the re-check raises (30 in one run on 3 September), repairs blocked or moved official links (37 in the same run), keeps the 48-hour and 24-hour windows and answers Trip.com operations the same day	2,300	6,900
Model usage at peak volumes, priced with no cache discount at Moonshot list rates: every record re-read 15 times a month, 25,000 new route decisions and 15,000 composed answers	1,000	3,000
Verification and acceptance reporting: monthly full review of all 1,360 records, quarterly two-way sampling, written evidence per the Acceptance and Delivery Standard	450	1,350
Hosting, security and backups: dedicated server at 99.99% monthly availability, TLS, daily full backups kept 30 days with a 1-hour recovery objective, external uptime monitoring, security patches and dependency updates	250	750
Official-source coverage: routes your stations ask for that are not yet in the base are researched and released with government sources within 48 hours, and new regional or transit policies become notes	167	500
