

T站信息库建设 — 需求文档

👁️ 解决了T站客人如下痛点:

Solves the following pain points for T-Station customers:

以下功能及信息可以解决客人"要不要办签证? 怎么办? 多少钱? 能待多久"的相关问题 (约占query60%, 剩余40%主要是护照信息变更, 订单服务等操作流程, 签证信息的提供无法解决)

The following features and information can solve customers' questions related to "Do I need a visa? How to apply? How much does it cost? How long can I stay?" (accounting for approximately 60% of queries; the remaining 40% mainly involves passport information changes, order services, and other operational processes that visa information provision cannot resolve)

如query排除订单及护照变更相关信息, 以下信息均可提供的情况下, 可以覆盖至少95%的问题

If order-related and passport change-related queries are excluded, the following information can cover at least 95% of questions when all provided.

- **签证信息查询器:** 快速根据个人证件及出行需求给出办签建议 (要不要办签证? 办什么签证? 怎么办, 转机要签证吗?)
- **Visa Information Query Tool:** Quickly provides visa application advice based on personal documents and travel needs (Do I need a visa? What visa do I need? How to apply? Do I need a visa for transit?)
- **签证信息展示页:** 给还没有具体目的地或者出行需求的客人提供信息服务, 属于知识科普, 便于客人更清晰的了解出行所需签证信息, 并便于行程安排决策
- **Visa Information Display Page:** Provides information services for customers who do not yet have a specific destination or travel needs, serving as knowledge dissemination to help customers clearly understand visa requirements for travel and facilitate itinerary decision-making.
- **AI回答交互:** 可智能化和便捷化的签证信息小助理, 交互友好, 个性化解答签证问题
- **AI Q&A Interaction:** An intelligent and convenient visa information assistant with user-friendly interaction that provides personalized answers to visa questions.

需实现功能

Features to be Implemented

携程签证信息标准

Ctrip Visa Information Standard

准确且全面，数据库需要有兼容性。所有信息需为已知条件下的最新内容，覆盖不同护照类型、签证类型、申请场景等多维度信息披露。

Accurate and comprehensive, The database needs to be compatible. All information must be the latest content under known conditions, covering multi-dimensional information disclosure across different passport types, visa types, application scenarios, etc.

该项目覆盖范围：总目标全球，一期目标携程T站覆盖的站点（中国香港、中国台湾、日本、韩国、美国、泰国、新加坡、马来西亚、英国、俄罗斯、澳洲、印尼、菲律宾、法国、越南、西班牙、印度、加拿大），测试站点携程T站流量最大的站点（中国香港、美国）

Project coverage: Global as the overall goal; Phase 1 targets stations covered by TRIP Station (Hong Kong, Taiwan, Japan, Korea, US, Thailand, Singapore, Malaysia, United Kingdom, Russia, Australia, Indonesia, Philippines, France, Vietnam, Spain, India, Canada) ; test station is the highest-traffic station on TRIP(Hong Kong,US。=The policies for US citizens traveling to countries around the world; The policies for Hong Kong residents traveling to countries across the globe)

功能优先级总览（对齐交付标准）Overall Priority (aligned with Delivery Standard):

优先级 Priority	交付物 Deliverable	定位 Positioning
P0（最高）	信息质量管控后台	运营日常检查、信息验收、变更管理的唯一核心入口；后台不达标即整体验收不通过
P1	签证信息查询器	快速查询办签建议
P2	签证信息展示页	面向无明确目的地的科普展示
P3	AI 问答交互	智能签证信息助手

1. 签证信息查询器（优先级 P1）

1. Visa Information Query Tool (Priority P1)

支持完整的行程维度查询：Supports comprehensive itinerary dimension queries:

输入字段 / Input Field	类型 / Type	说明 / Description	示例 / Example
出行证件类型 Travel Document Type	必填 Required	所持出行证件类型 Type of travel document held	普通护照、外交护照 Ordinary Passport, Diplomatic Passport
国籍 Nationality	必填 Required	证件签发国 Document issuing country	中国、日本、美国 China, Japan, USA
出行目的 Travel Purpose	必填 Required	出行目的 Purpose of travel	旅游、商务、探亲、留学、工作、过境 Tourism, Business, Visiting Relatives, Study, Work, Transit
出发地 Departure Location	必填 Required	行程起点 Starting point of itinerary	北京、上海 Beijing, Shanghai
目的地 Destination	必填 Required	行程终点 End point of itinerary	日本、泰国 Japan, Thailand
中转点 Transit Point	可选 Optional	经停/转机城市，用于查询过境签证 Stopover/transfer city, used for transit visa queries	新加坡、迪拜 Singapore, Dubai

输出：Output:

【详细信息】内提及的内容Content mentioned in [Detailed Information]

- 签证要求（免签/落地签/需提前办理）
- Visa requirements (Visa-free / Visa on Arrival / Visa required in advance)
- 对应签证类型（如"B1/B2"、"L字签证"、"短期滞在"）
- Corresponding visa type (e.g., "B1/B2", "L Visa", "Short-term Stay")
- 完整签证详情（有效期、停留天数、材料清单等）
- Complete visa details (validity period, length of stay, document checklist, etc.)
- 过境签证要求（如有中转）
- Transit visa requirements (if there is a transit)

注：核心目标是准确，所以需要有信息准确性的校验，在测试demo的时候发现存在信息不准确问题，因为需要需要对客户负责，信息准确性要求非常高。黑色字体最简版的要求（可以参看核心字段（6个）--必须要有），如果附加红色准确信息将属较理想的版本（签证详情字段（10个））。这两个版本的难易程度不一致将决定您的投入成本。可以参看附录demo不准确的信息来考虑信息准确能力，如果全

面的信息准确可能需要一些线下行业知识以及更多的AI模型交叉验证。 终极理想版本则是加上附加字段4，但不是快速开展的必要需求。

Note: The core objective is accuracy, so verification of information correctness is required. During the testing of the demo, we found issues with inaccurate information. Since we need to be responsible to customers, the requirement for information accuracy is extremely high. The requirement for the simplest version in black font (Please refer to it for details-Core Fields (6) -- Required) is that adding accurate information in red will make it a more ideal version (=simple version+Visa Detail Fields (10)). The difference in difficulty between these two versions will determine your input cost. You may refer to the inaccurate information in the demo in the appendix to evaluate the information accuracy capability, as ensuring fully accurate information may require some offline industry knowledge and cross-validation across multiple AI models. The ultimate ideal version would include additional field 4, but this is not a necessary requirement for rapid implementation.

附录：demo不准确的内容

Appendix: Inaccurate Content of the Demo

一、关键信息缺失

1. **签证类型不完整**：仅提及3个月单次旅游签证，未覆盖官方提供的其他签证类型（如3年多次、5年多次旅游签证）
2. **特殊政策缺失**：未说明主副申请人规则、免资产申请等便利政策

二、信息错误

1. **申请渠道错误**：标注为"Visa application centre"，实际日本签证不接受个人申请，必须通过指定代办机构办理
2. **停留天数错误**：笼统标注"最长90天"，实际不同签证类型停留天数不同（单次15天、3年多次30天、5年多次90天）
3. **签证费用缺失/错误**：未提及签证费，或错误标注为VFS费用（实际应由使领馆签证费+代办机构服务费组成）
4. **官网链接指向错误**

I. Missing Key Information

1. **Incomplete visa types**: Only the 3-month single-entry tourist visa is mentioned, while other official visa types (such as 3-year multiple-entry and 5-year multiple-entry tourist visas) are not covered.
2. **Lack of special policies**: No facilitation policies such as rules for primary and secondary applicants and asset-free application are specified
3. **Information Errors**

4. **Incorrect application channel:** It is marked as "Visa Application Centre", but in reality, individual applications for Japanese visas are not accepted and must be submitted through a designated authorized agent
5. **Error in length of stay:** It is generally marked as "maximum 90 days", but the actual length of stay varies by visa type (15 days for single-entry visas, 30 days for 3-year multiple-entry visas, and 90 days for 5-year multiple-entry visas)
6. **Missing/Incorrect Visa Fee Information:** No mention of the visa fee, or incorrect labeling as VFS fee (the actual fee consists of the consular visa fee plus the service fee charged by the authorized agent)
7. **The official website link points to the wrong destination**

查询后进入信息页面

Visa required

Short-term stay (tourism)

PERMITTED STAY

Up to 90 days (determined at issuance/entry)

PROCESSING TIME

About 5 working days

WHERE TO APPLY

Visa application centre

DOCUMENTS YOU NEED

- Valid ordinary passport
- Completed visa application form
- Recent passport photo
- Flight itinerary / return booking
- Hotel reservations or accommodation proof
- Travel itinerary
- Financial proof (bank statements / income certificate)
- Employment or student proof
- China residence / ID / hukou proof

PASSPORT & PHOTO

Passport validity: Valid for the entire stay

Photo: 45mm x 45mm, color, white background, taken within 6 months, no head coverings except religious.

WHAT TO SHOW

Confirmed return or onward flight booking

Accommodation: Hotel reservations for full stay or invitation letter with guarantor documents.

Funds: Recent bank statements, income certificate, or tax records.

FORMS & OFFICIAL PORTAL

Start on the official portal

HOW TO APPLY

- Register on the Japan Visa Application Centre (JVS Global website - official portal)
- Book an appointment
- Complete the visa application form before appointment.
- Pay visa fee and VFS service fee at the visa centre.
- Accepted methods vary by centre.
- Attend appointment in person at Japan Visa Application Centre.
- Submit passport and documents.
- Collect passport or receive by courier after processing.

DOCUMENTS YOU NEED

- ✓ Valid ordinary passport
- ✓ Completed visa application form.
- ✓ Recent passport photo
- ✓ Flight itinerary / return booking.
- ✓ Hotel reservations or accommodation proof.
- ✓ Travel itinerary
- ✓ Financial proof (bank statements / income certificate)
- ✓ Employment or student proof
- ✓ China residence / ID / hukou proof.

PASSPORT & PHOTO

Passport validity **Valid for the entire stay**

Photo

45mm x 45mm, color, white background, taken within 6 months, no head coverings except religious.

WHAT TO SHOW

Onward travel **Confirmed return or onward flight booking.**

Accommodation

Hotel reservations for full stay or invitation letter with guarantor documents.

Funds

Recent bank statements, income certificate, or tax records.

ENTRY REQUIREMENTS

Biometrics **Not required**

Interview **Not required**

Appointment **Required**

Travel insurance **Not required**

Arrival card

Visit Japan Web immigration/customs declaration (or paper form), before arrival or at immigration inspection.

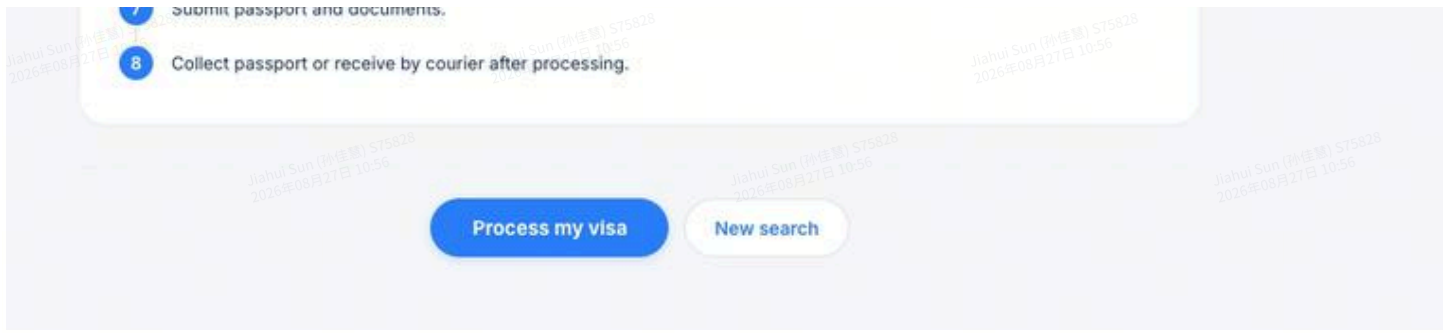

FORMS & OFFICIAL PORTAL

[Japan short-term stay visa application form.](#)

[Start on the official portal ↗](#)

HOW TO APPLY

- 1 Register on the Japan Visa Application Centre (VFS Global) website. [official portal ↗](#)
- 2 Book an appointment
- 3 Complete the visa application form before appointment.
- 4 Pay visa fee and VFS service fee at the visa centre.
- 5 Accepted methods vary by centre.
- 6 Attend appointment in person at Japan Visa Application Centre.

2. 签证信息展示页（优先级 P2）

2. Visa Information Display Page (Priority P2)

- 按"护照 × 目的地"维度展示签证攻略信息
- Displays visa guide information by "Passport × Destination" dimension
- 包含【详细信息】内提及的内容
- Includes content mentioned in [Detailed Information]
- 每个"护照 × 目的地"组合为独立页面
- Each "Passport × Destination" combination is an independent page
- 页面顶部提供出行证件类型切换（默认"普通护照"，可切换查看外交护照/公务护照等）
- Travel document type switching provided at the top of the page (default: "Ordinary Passport", can switch to view Diplomatic Passport/Official Passport, etc.)
- 页面内提供出行目的筛选（旅游/商务/探亲等），切换后展示对应签证类型的详情
- Travel purpose filtering provided on the page (Tourism/Business/Visiting Relatives, etc.), showing corresponding visa type details after switching

3. AI问答交互（优先级 P3）

3. AI Q&A Interaction (Priority P3)

- 用户可用自然语言提问（如"持中国普通护照去日本旅游需要什么签证?"）
- Users can ask questions in natural language (e.g., "What visa do I need for tourism in Japan with a Chinese ordinary passport?")
- AI检索知识库后生成回答，并标注信息来源
- AI generates answers after searching the knowledge base and annotates information sources

4. 信息质量管控（后台管理）（优先级 P0）

4. Information Quality Control (Backend Management) (Priority P0)

- **内容抽查：** 可对查询器结果、展示页、AI问答输出进行抽查验证
- **Content Spot Check:** Can conduct spot check verification on query tool results, display pages, and AI Q&A outputs
- **问题反馈：** 发现错误后可标记问题并即时反馈给信息提供方核实更正
- **Issue Feedback:** After discovering errors, can mark issues and immediately feedback to information providers for verification and correction
- **跟踪进度：** 跟踪修正进度，确认后更新上线
- **Progress Tracking:** Track correction progress, update and go live after confirmation
- **信息质量等级：** 自动标注置信度（高/中/低），低置信度内容拦截至运营确认后才展示
- **Information Quality Level:** Automatically labels confidence level (High/Medium/Low); low-confidence content is blocked until operation confirmation before display
- **来源追溯：** 每条信息绑定来源URL，支持追溯核查
- **Source Traceability:** Each piece of information is bound to a source URL, supporting traceability and verification
- **批量导出 Excel：** 支持按站点/目的地/签证类型筛选后导出 .xlsx，含**字段说明 sheet**与数据**sheet**，范围=25基础字段+来源+置信度；单次导出不少于 **10,000** 条；离线与线上同步，无法同步须标注快照时间戳
- **Batch Excel Export:** Export .xlsx with filter; two sheets; $\geq 10,000$ rows; sync offline or mark snapshot timestamp
- **逐一字段清单校验：** 显示每条信息25字段填写状态（已填/缺失/未过审），完整度可见
- **Per-field Check List:** Show fill status (filled / missing / not approved)
- **变更管理：** 每次更新后高亮变更字段，区分新增/修改/删除，可查变更记录
- **Change Management:** Highlight changed fields; distinguish add/modify/delete; with history

5. 非功能需求（性能与可用性）

5. Non-Functional Requirements (Performance & Availability)

- **在线免安装访问：** 提供浏览器直接打开、免安装、免本地环境配置的在线测试链接，供运营深度核查
- **Online browser access** without installation/local env for deep review by operations
- **批量导出性能：** 一次导出 $\geq 10,000$ 条不超时、不丢数据
- **Batch export performance:** $\geq 10,000$ rows/export, no timeout/loss

- **稳定性与可用性：** 系统 7×24 运行；服务可用性≥99.99%（月度计，计划内维护报备不计入）
- **Availability:** 7×24 uptime; ≥99.99% monthly
- **安全与备份：** 每日至少全量备份一次；RTO 按交付标准最终确认值执行
- **监控与告警：** 提供运行监控与告警，故障可及时发现、定位与通报
- **数据变更可追溯：** 每次更新同步产生后台变更记录并高亮

详细信息（字段定义）

Detailed Information (Field Definitions)

👁️ 总结: T站签证信息展示标准（基础版）

Summary: T-Station Visa Information Display Standard (Basic Version)

定位：聚焦基础问题，解决"要不要签、有哪些类型、怎么办"三个核心问题。

Positioning: Focus on basic questions, solving three core issues: "Do I need a visa? What types are available? How to apply?"

必须包含的以下内容：

Must include the following content:

- 签证类型 — 按护照类型和出行目的，列出所有可办理的签证产品（如日本旅游签：3个月单次 / 3年多次 / 5年多次）
- Visa Type — By passport type and travel purpose, list all available visa products (e.g., Japan tourist visa: 3-month single / 3-year multiple / 5-year multiple)
- 有效期 — 每种签证类型对应的有效期
- Validity Period — Validity period corresponding to each visa type
- 停留天数 — 每种签证类型对应的最长停留天数
- Length of Stay — Maximum length of stay corresponding to each visa type
- 官方费用 — 每种签证类型对应的使领馆签证费（不含代办服务费）
- Official Fee — Embassy/Consulate visa fee for each visa type (excluding agency service fees)
- 办理渠道 — 明确自助/代办/官网申请，不可含糊（如日本签证：不接受个人申请，须通过指定代办机构）
- Application Channel — Clearly specify self-service/agency/official website application, no ambiguity (e.g., Japan visa: personal applications not accepted, must apply through designated agencies)

- 基本材料要求 — 按签证类型列出核心材料大类（不需逐项明细，但覆盖面要全）
- Basic Document Requirements — List core document categories by visa type (no need for item-by-item details, but coverage must be comprehensive)
- 办签流程 — 从准备到出签的关键步骤（3-5步即可）
- Visa Application Process — Key steps from preparation to visa issuance (3-5 steps are sufficient)
- 入境TIPS — 入境卡填写、海关申报等实用提示
- Entry TIPS — Practical tips such as arrival card filling, customs declaration, etc.

一、核心字段（6个）--必须要有

I. Core Fields (6) -- Required

定义签证查询的基础参数

Defines basic parameters for visa queries

序号 / No.	字段名 / Field Name	英文名 / English Name	类型 / Type	说明 / Description	示例值 / Example Value	枚举/规则 / Enumeration/ Rules
1	出行证件类型 Travel Document Type	travel_document_type	枚举 Enum	所持出行证件类型 Type of travel document held	普通护照 Ordinary Passport	P0（5种）： 普通护照、外交护照、公务护照、旅行证、临时护照； P0 (5 types): Ordinary Passport, Diplomatic Passport, Official Passport, Travel Document, Temporary Passport; P1扩展： 公务普通护照、紧急

						护照、儿童护照、外国人护照、无国籍人旅行证、联合国通行证、身份证明书、难民旅行证 P1 Expansion: Official Ordinary Passport, Emergency Passport, Child Passport, Alien Passport, Stateless Person Travel Document, United Nations Laissez- Passer, Identity Certificate, Refugee Travel Document
2	国家/国籍 Country/Nationality	travel_document_country	字符串 String	证件签发国（申请人国籍） Document issuing country (applicant nationality)	日本、韩国、美国 Japan, South Korea, USA	—
3	目的地国家 Destination Country	destination_country	字符串 String	签证目的地 Visa destination	中国、泰国、日本 China, Thailand, Japan	—
4	出行目的	travel_purpose	枚举		旅游	

	Travel Purpose		Enum	用户出行目的（查询器输入） User's travel purpose (query tool input)	Tourism	旅游、商务、探亲、留学、工作、过境、其他 Tourism, Business, Visiting Relatives, Study, Work, Transit, Other
5	签证要求 Visa Requirement	visa_requirement	枚举 Enum	系统判断要不要办签证 System determines whether a visa is needed	免签→无条件免签 Visa-free → Unconditional Visa-free	一级分类： 免签 / 落地签 / 需提前办理； Primary Classification: Visa-free / Visa on Arrival / Visa Required in Advance; 细化子类： Detailed Subcategories : - 免签→无条件免签/有条件免签/过境免签 - Visa-free → Unconditional Visa-free / Conditional Visa-free / Transit Visa-free - 落地签→落地电子签/落地纸质签 - Visa on Arrival → eVisa on Arrival / Paper Visa on Arrival

						- 需提前办理 →eVisa电子签/ 纸质签证/ETA 电子授权 - Visa Required in Advance → eVisa / Paper Visa / ETA Electronic Authorization
6	对应签证类型 Corresponding Visa Type	visa_type_name	文本 Text	系统根据出行目的+目的地推荐的签证类型名称 Visa type name recommended by the system based on travel purpose + destination	L字签证 L Visa	各国签证命名不同，如B1/B2（美国商务）、短期滞在（日本旅游）、L字签证（中国旅游）等 Visa naming varies by country, e.g., B1/B2 (US Business), Short-term Stay (Japan Tourism), L Visa (China Tourism), etc.

二、签证详情字段（10个）

II. Visa Detail Fields (10)

签证的具体参数，是用户最关心的决策信息。

Specific parameters of the visa, which are the decision-making information users care about most.

序号 / No.	字段名 / Field Name	英文名 / English Name	类型 / Type	必须要有 / Required	说明 / Description	示例值 / Example Value	枚举/规则 / Enumeration/Rules

7	签证有效期 Visa Validity Duration	validity_duration	数字 Number	是 Yes	获批后多少 时间内有效 How long it is valid after approval	90	—
8	有效期（单位） Validity (Unit)	validity_unit	枚举 Enum	是 Yes	有效期单位 Validity period unit	天 Day	天、月、 年、长期有效 Day, Month, Year, Long- term Valid
9	最长停留时间 Maximum Stay Duration	max_stay_duration	数字 Number	是 Yes	单次入境可 停留的最长 时长 Maximum length of stay per entry	30	—
10	时间单位 Time Unit	max_stay_unit	枚举 Enum	是 Yes	最长停留时 间单位 Maximum stay time unit	天 Day	小时、天 Hour, Day
11	入境次数 Number of Entries	entries	枚举 Enum	是 Yes	单次/多次 Single/Multi ple	单次 Single	单次、多 次、不限 Single, Multiple, Unlimited
12	办理时长 （最小值） Processing Time (Minimum)	processing_min_days	数字 Number	如有，则 提供 Provide if available	从递交到出 签的最短时 间 Shortest time from submission to visa issuance	3	—

13	办理时长 (单位) Processing Time (Unit)	processing_unit	枚举 Enum	如有，则 提供 Provide if available	时长单位 Time unit	工作日 Working Day	工作日、自然日 Working Day, Calendar Day
14	签证费用 (金额) Visa Fee (Amount)	visa_fee_amount	数字 Numb er	是 Yes	官方签证费 金额 Official visa fee amount	160	—
15	签证费用 (币种) Visa Fee (Currency)	visa_fee_currency	枚举 Enum	是 Yes	费用币种 Fee currency	USD	ISO 4217 币种代码 ISO 4217 Currency Code
16	申请方式 Application Method	application_meth od	枚举 Enum	是 Yes	办理渠道 Application channel	在线申请 Online Application	使馆递交、 在线申请、 代理代办、 落地办理、 其他 Embassy Submission , Online Application, Agency Service, On- arrival Processing, Other

三、附加信息字段（4个）

III. Additional Information Fields (4)

其他可能有用的信息，提升内容完整度和实用性

Other potentially useful information to enhance content completeness and practicality.

--	--	--	--	--	--	--	--

序号 / No.	字段名 / Field Name	英文名 / English Name	类型 / Type	必须要有 / Required	说明 / Description	示例值 / Example Value	枚举/规则 / Enumeration/Rules
17	所需材料 Required Documents	required_documents	文本列表 Text List	是 Yes	核心材料清单 Core document checklist	护照、照片、行程单 Passport, Photo, Itinerary	多个材料用英文逗号分开 Multiple documents separated by English commas
18	领区信息 Consulate District	consulate_district	文本 Text	如有，则提供 Provide if available	如目的地有领区划分，列出对应关系 If destination has consulate district divisions, list the corresponding relationships	北京领区、上海领区 Beijing Consulate District, Shanghai Consulate District	部分国家分领区，政策可能不同 Some countries have consulate districts with potentially different policies
19	入境要求 Entry Requirements	entry_requirements	文本 Text	如有，则提供 Provide if available	除签证外的其他入境要求 Other entry requirements besides visa	需持有效回程机票 Valid return ticket required	—
20	特殊条件 Special Conditions	special_conditions	文本 Text	如有，则提供 Provide if available	特殊政策或限制条件 Special policies or restrictions	144小时过境免签、持有效美签可免签入境 144-hour transit visa-free, visa-free entry with	—

Jiahui Sun (孙佳慧) 575828 2026年08月27日 10:56		Jiahui Sun (孙佳慧) 575828 2026年08月27日 10:56			Jiahui Sun (孙佳慧) 575828 2026年08月27日 10:56	valid US visa	
--	--	--	--	--	--	------------------	--

四、数据来源字段（5个，含置信度）

IV. Data Source Fields (5, incl. confidence)

用于追溯和质量管理的

Used for traceability and quality management.

序号 / No.	字段名 / Field Name	英文名 / English Name	类型 / Type	必填 / Required	说明 / Description	示例值 / Example Value	枚举/ 规则 / Enum eratio n/Rule s
21	数据来源 Data Source	data_source	文本 Text	✓	信息来源网站/ 机构 Information source website/orga nization	中国外交部 Ministry of Foreign Affairs of China	—
22	来源URL Source URL	source_url	URL URL	✓	具体页面链接 Specific page link	https://...	—
23	采集时间 Collection Time	collected_at	日期 Date	✓	数据采集日期 Data collection date	2026-06-17	—
24	信息有效期 Information Validity	info_validity	日期 Date	✓	政策本身的有效期至 Policy validity period until	2026-12-31	—
25	信息质量等 级	confidence_level	枚举 Enum	✓	数据可信程度	高 High	高：单 一官方

	Information Quality Level			Data credibility level		信源， 信息完整，无冲突 High: Single official source , complete information, no conflicts 中：多源一致，或官方信源但部分字段缺失 Medium: Multiple sources consistent, or official source but some fields missing 低：多源冲
