PATCH (or PUT, but PATCH is recommended): Update an existing resource.

DELETE: Delete a resource.

What is AJAX?

AJAX stands for Asynchronous JavaScript and XML.

Asynchronous is a term used to describe a non-blocking process. This means that, when we're making updates, we can load data into part of a page without having the whole page refresh.

AJAX is used all over the web. You've probably encountered it before, even if you weren't aware of it.

Making AJAX requests

Let's take a look at the syntax for the AJAX method:

```
$.ajax({ });
```

Then we'll use object literal notation to pass in a settings object as the argument.

Making AJAX requests

Here are some of the settings we can provide:

type

url

data

success

error

type

This will take the value
“POST” when we want to
send data that updates on
a server

Making AJAX requests

Here are some of the settings we can provide:

```
@app.route('/save_sale', methods=['GET', 'POST'])
```

```
def save_sale():  
    request_data = request.get_json()  
    client = request_data['client']
```

jsonify module

Let's take a look at the syntax for the HTTP methods:

```
from flask import request, jsonify

@app.route('/save_sale', methods=['GET', 'POST'])

def save_sale():
    request_data = request.get_json()
    client = request_data['client']

    sales.append(request_data)
    return jsonify(sales = sales, clients = clients)

Color and Meaning

Color has a predictable and quantifiable physiological effect that influences our perception and our behavior.

What are American associations with these colors?

It's all about context.**

Color meanings are not absolute.
But at any time and place,
they may mean something you don't intend.

In your designs, stick to simple color meanings

Do not use color as the only way to convey meaning. Use grouping, whitespace, position, size and contrast.

Color Representation

There are three perceptual dimensions of color: HSV

The HSB (sometimes called HSV) Color System

- H = Hue
- S = Saturation
- B = Brightness

It's a prominent color system used in digital design.

[Colorizer.org](https://colorizer.org) provides an HSB color picker, calculator and generator with high precision and contrast test. Also translates colors to other systems.

Serifs

Oldstyle

The word 'Oldstyle' is written in a black serif font. Four red squares are overlaid on the text to highlight specific serif features: the top of the first 'l', the top of the second 'l', the bottom of the 'd', and the top of the 'y'.

Serifs – there's more!

Serif vs. Sans serifs

The Serif Hypothesis

Serif fonts are faster to read.

The little hooks indicate where your eyes should move next.

There is no evidence to support this.

Any differences in reading speed are dwarfed by individual differences, or familiarity.

Who follows the Serif Hypothesis?

Typography is the art and technique of arranging type, type design, and modifying *type glyphs*. Type glyphs are created and modified using a variety of illustration techniques. The arrangement of type involves the selection of typefaces, point size, line length, leading (line spacing), adjusting the spaces between groups of letters (tracking) and adjusting the space between pairs of letters (kerning).

PSYCHOLOGY

an organized whole that is perceived as more than the sum of its parts.

German ▼   	English ▼  
gestalt	shape

What is Gestalt?

The simple answer is Gestalt is a school of thought based on the notion that, when people observe something (a road sign, a web page, a painting, etc.), they see the whole before they see the component parts. For instance, look at the following image:

Most people will see a spiky sphere rather than an arrangement of cones and triangles.

Typography Terms

Serif fonts are faster to read.

The little hooks indicate where your eyes should move next.

There is no evidence to support this.

Any differences in reading speed are dwarfed by individual differences, or familiarity.

Your font should enhance your message,
Not detract from it.

8 Gestalt Principles

Pick four colors (and a white background)

- A base color
- An accent color
- A light grey
- A dark grey
