**AFFIDAVIT OF JANE SUN IN SUPPORT OF
SAMMY NAWALY ABDELLA'S O-1A PETITION**

I, Jane Sun, declare under penalty of perjury under the laws of the United States of America that the following is true and correct to the best of my knowledge:

1. I am the Chief Executive Officer and a director of Trip.com Group. My professional experience includes leading a global technology-enabled company, evaluating high-growth businesses, and overseeing international operations and strategy.
2. I became familiar with Sammy Nawaly Abdella's background, personal journey, technical abilities, and work as the founder of Ellis Intelligence Inc., an artificial intelligence company developing technology for immigration case preparation.
3. I was impressed by Sammy's intelligence, determination, technical skill, and ability to transform difficult personal experiences into meaningful and commercially promising work.
4. Based on my experience in technology, international business, and company building, I believe Sammy possesses the judgment, resilience, and professional ability necessary to achieve substantial success in his field.
5. John Wu and I invested a combined US\$180,000 in Ellis. That investment reflects my genuine confidence in Sammy's leadership, technical capabilities, and the potential of the company he is building.
6. I would not have supported this investment without believing that Sammy has exceptional professional potential and the ability to create significant technological and commercial impact.
