

AI workspace for immigration operations

THE PROBLEM

Immigration is expensive because the work is manual and scattered.

PDFs / email / Slack / spreadsheets / portals / notices

Employers pay too much to sponsor immigrants because the process is lengthy and full of tasks AI can automate faster and cheaper.

Immigrants waste time on filings that can be automated and money on routine questions AI can answer instantly.

Lawyers lose too many hours to automatable tasks and scattered inbox workflows instead of reviewing complete cases.

CORE INSIGHT

Immigration is not one filing. It is a recurring operating system.

HANDOFFS

Employers need lower immigration costs and faster workflows. Immigrants need AI agent assistance and a faster, cheaper immigration process. Counsel needs an organized workflow, less repetitive work, and final-review focus.

Ellis becomes the shared workspace and action layer for every case.

PRODUCT

Ellis turns scattered inputs into a managed immigration case.

Employers, employees, and counsel finally share a workspace with AI assistance for a faster, cheaper process.

Ellis automates the immigration process end to end - from intake and case building to filing workflows, operations, and attorney final review.

AUTOMATION LAYER

Ellis does the work around the legal decision.

Lawyers still approve filings. Ellis automates the operational layer around them.

**Less inbox work.
More legal leverage.**

WHO BENEFITS

One workflow. Three economic winners.

Ellis removes the operational work that makes immigration slow, expensive, and confusing.

Employees

Use AI agent question assistance, know what to upload, and avoid lawyer fees for routine help.

Employers

Automate onboarding, hiring, compliance, renewals, and immigration tasks across the workforce.

Lawyers

Receive complete, structured case files and spend less time on doc review, evidence chasing, and prep.

Lower counsel fees, faster cycles, and fewer missed obligations - without removing attorney oversight.

WHY NOW

Immigration ops is ready to move from inboxes to agents.

01 **AI can read the full case file** passports, forms, notices, evidence, Slack, email, and PDFs

02 **Companies need to cut legal ops cost** keep counsel for final review; automate coordination, prep, and follow-through

03 **Employees expect instant support** immigration should feel managed, not trapped in a ticket queue

Ellis turns immigration from inbox chaos into one shared AI workflow.
