

AI workspace for immigration operations

THE PROBLEM

Immigration work is scattered across tools that were never built to run it.

PDFs / email / Slack / spreadsheets / portals / notices

Employers pay too much to sponsor immigrants because a slow, manual process still drives the work.

Immigrants waste time on filings AI can automate, and waste money on routine questions AI can answer.

Lawyers lose hours to repetitive tasks and scattered inbox workflows instead of reviewing attorney-ready cases.

Ellis automates the operational work so counsel is only needed for final review.

CORE INSIGHT

Immigration is not one filing. It is a recurring operating system.

COMPLIANCE

RENEWALS

TRAVEL

RFEs

EVIDENCE

HANDOFFS

Ellis becomes the shared workspace and action layer for every case.

Employers need lower immigration costs and faster workflow. Immigrants need AI agent question assistance and a faster, cheaper immigration process. Counsel needs organized, attorney-ready cases so lawyers focus on final review, not repetitive tasks.

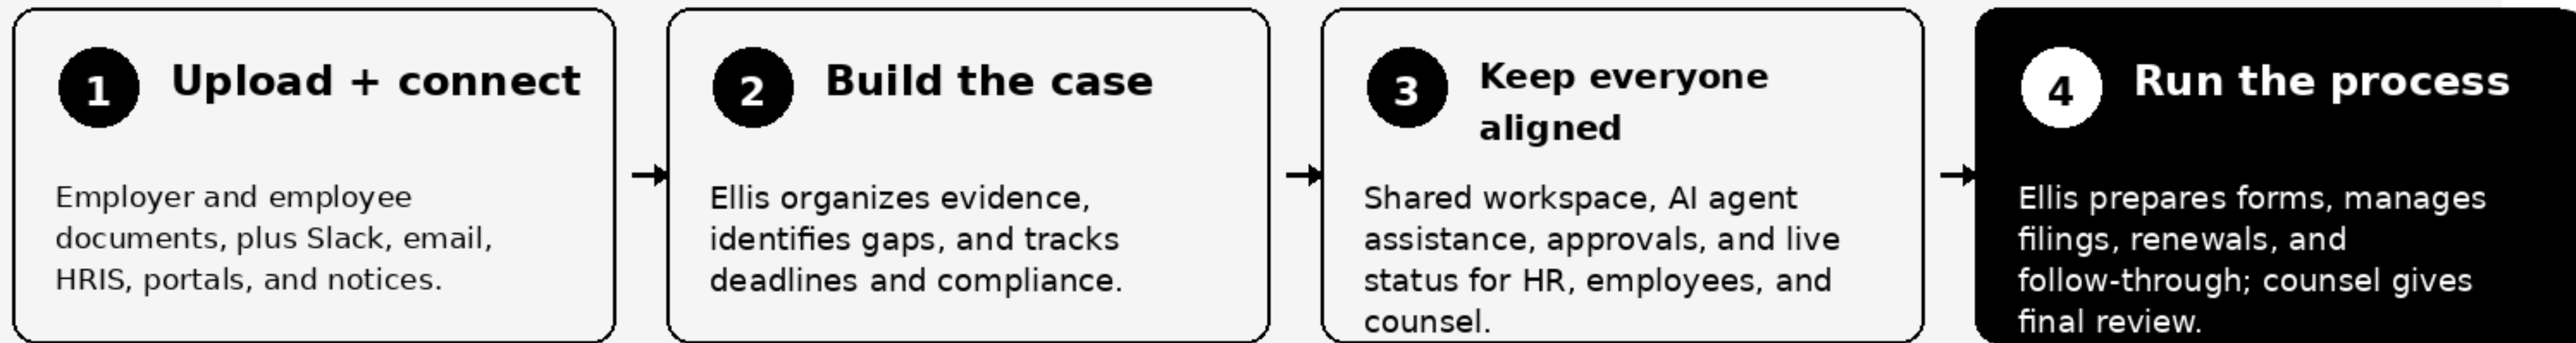

PRODUCT

04

Ellis turns scattered inputs into a managed immigration case.

Employers, employees, and counsel finally share one workspace with AI assistance for a faster, cheaper process.

Ellis automates the full immigration process — from intake and case building to filing, operations, and final legal review.

AUTOMATION LAYER

Ellis does the work around the legal decision.

Lawyers still approve filings. Ellis automates the operational layer around them.

doc review

AI question help

risk flags

notice summaries

form prep

evidence packets

**Less inbox work.
More legal leverage.**

WHO BENEFITS

One workflow. Three economic winners.

Ellis removes the operational work that makes immigration slow, expensive, and confusing.

Employees

Use AI agent question assistance, know what to upload, and avoid lawyer fees for routine help.

Employers

Automate onboarding, hiring, compliance, renewals, and immigration tasks across the workforce.

Lawyers

Receive complete, structured case files and spend less time on doc review, evidence chasing, and prep.

Lower counsel fees, faster cycles, and fewer missed obligations - without removing attorney oversight.

MARKET

\$4T+ global TAM

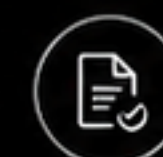

Bottoms-up global TAM across the workflow layers Ellis can ultimately power.

Start with the core wedge.

Immigration workflows

Document authenticity
+ translation

Mobility, compliance,
and employer ops

Ellis expands from immigration operations into the broader global mobility workflow stack.

**\$300B+
core wedge**

Immigration + visa services +
document authenticity + translation +
workflow + compliance.

Beyond form-filing: Ellis runs the full immigration workflow in one shared workspace.

Traditional firms	Fragomen, BAL	Attorney-led service: high cost, slow operating cadence
Immigration legaltech	Mayflower, LegalOS	AI form filling only — not a shared workspace, and not the end-to-end workflow across docs, email, Slack, and approvals
HR platforms	Deel, Rippling	Immigration is a side feature inside payroll/HR
Ellis	Shared workspace + AI action layer	Automates and runs the full immigration process for employers and employees

WHY NOW

Immigration ops is ready to move from inboxes to agents.

- | | | |
|----|---|--|
| 01 | AI can read the full case file | passports, forms, notices, evidence, Slack, email, and PDFs |
| 02 | Companies need to cut legal ops cost | keep counsel for final review; automate coordination, prep, and follow-through |
| 03 | Employees expect instant support | immigration should feel managed, not trapped in a ticket queue |

Ellis turns immigration from inbox chaos into one managed workflow.
