

T-Station Visa Information Base

To: Trip.com Group, Visa & Insurance Business Unit · Attn: Hazel Huang

Built on your section 2.1 cost breakdown, at your PLUS rate, for all 18 sites.

1 · SCOPE database product only

- **P0** Information Quality Control Backend
- **P1** Visa Information Query Tool
- **P2** Visa Information Display Pages
- **P3** AI Q&A Assistant
- 25-field dataset bound to official sources, Excel export, change log, and acceptance documents for all five stages

2 · ONE-TIME BUILD your figures, unchanged

ITEM	UNIT USD	QTY	AMOUNT USD
Base setup and storage	9,000	1	9,000
Version rollout, base	10,000	1	10,000
PLUS version, per site	1,700	18	30,600
Build total			49,600

We accept your build estimate in full, at \$49,600. Not a dollar is added to it, and all 18 sites are delivered at the qualified PLUS version rather than the simplified one. Everything that recurs after go-live is priced separately below, so the two numbers never blur into each other.

3 · MONTHLY OPERATIONS everything that recurs after go-live

ITEM	USD / MONTH
AI engineer maintaining the database, half time	3,000
Acceptance programme: five stages, three documents each	540
On-call cover for the 24-hour urgent policy path	400
Model and research API, measured per operation (section 6)	482
Hosting with redundancy, daily backup with 1h RTO, external monitoring	120
Tooling, support and contingency	158
Monthly total	4,700

Year one: build plus 12 months of operations

USD 106,000

\$106,000

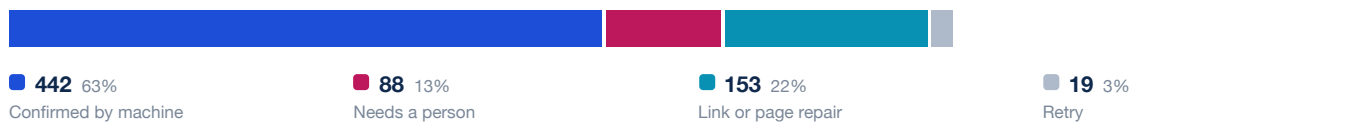

The build is charged once. Every year after the first is operations only, **USD 56,400**, and the system belongs to you.

4 · PAYMENT

30%	Stage 2 functional acceptance
30%	Stage 3 grey release. Hong Kong and the United States, your two test sites, are at depth now
40%	Stage 4 full acceptance, all 18 sites on the PLUS version
Monthly	Operations billed from full go-live

Payment on acceptance and verification, per Ctrip standard policy. Prices exclude taxes.

5 · WHY THE MONTHLY FEE NEEDS AN AI ENGINEER sized from the sweep of 29 August 2026

One monthly review re-reads every cached answer against its official government page. On the last run, 702 answers were re-read: most were confirmed by machine with no human time, 88 needed a person to rule on a discrepancy, and 153 needed a source link repaired.

Human work in one monthly cycle, measured 10.4

Working days in a month 21.7

Which is a permanent half-time role 0.48 FTE

This is an AI engineer, not a data clerk. The job is adjudicating what the machine flags against official sources, keeping the verification pipeline running, and holding the 48-hour correction and 24-hour urgent windows. Without that person the database drifts and the accuracy targets in section 6.1 stop being met. The deep-research runs in the table above are the same work on the machine side: each one reads up to twelve government pages for a route nobody has answered before.

6 · WHAT THE MODEL ACTUALLY COSTS unit costs measured on the live system

OPERATION	UNIT USD	PER MONTH	USD
Route decision, not yet in cache	\$0.0106	25,000	\$265
Re-check one answer against its official page	\$0.0157	2,500	\$39
Deep research, up to twelve government pages	\$0.1184	500	\$59
AI Q&A question parsing	\$0.0018	50,000	\$89
Translation deltas			\$30

Model and research API \$482

Unit costs are computed from sizes measured on the running system and Kimi's published rates of \$1.90 per million input tokens and \$8.00 per million output. Page text is capped at 40,000 characters, and the official pages this database cites average 8,354 characters of extracted text, sampled live across 17 government sources. Volumes assume 500,000 requirement queries a month across the 18 sites with 95% served from cache; the unit costs hold at any volume, so this line scales with your traffic rather than being a flat fee.

7 · FOR REFERENCE, AGAINST YOUR OWN VISA PRODUCTS live prices on vacations.ctrip.com/visa, 30 August 2026

CTRIP PRODUCT	PRICE CNY	USD
美国个人旅游签证 加急 · US tourist, expedited	¥3,699	\$521
加拿大个人旅游签证 · Canada tourist	¥4,188	\$590
日本个人旅游签证 5年多次 · Japan, 5-year multiple	¥1,758	\$248
意大利个人旅游签证 特加急 · Italy tourist, expedited	¥1,288	\$181
韩国个人旅游签证 5年多次 · Korea, 5-year multiple	¥858	\$121
土耳其 180日多次 · Turkiye, 180-day multiple	¥535	\$75

Year one is \$106,000. At the \$521 service fee Ctrip already charges for one expedited US tourist visa, that is 203 applications. Every year after the first is \$56,400, or 108 applications, roughly nine a month. This database sits underneath every one of the products in that table.

8 · SOURCES

1. Trip.com Group cost breakdown, section 2.1, supplied by email: base setup and storage USD 9,000; rollout base USD 10,000; PLUS version approximately USD 1,700 per site across approximately 18 sites.
2. Ctrip visa product prices read live from Trip.com Group's own consumer page on 30 August 2026. Converted at 7.1 CNY to the dollar.
vacations.ctrip.com/visa
3. T-Site Visa Information Base Acceptance and Delivery Standard, section 4.3 (timeliness and periodic review), section 5.3 (acceptance documents) and section 6.1 (quantified metrics).
4. Live environment. The sweep figures and every acceptance metric are re-computable from the Excel export.

T站签证信息库建设·项目报价单

致：携程集团 签证与保险业务部 · Hazel Huang

本报价基于贵司 2.1 节成本测算，按 PLUS 单价、18 个站点计价。

1 · 交付范围 仅信息库产品

- **P0** 信息质量管控后台
- **P1** 签证信息查询器
- **P2** 签证信息展示页
- **P3** AI 问答交互
- 25 字段数据集（绑定官方来源）、Excel 导出、变更记录，以及五个阶段的验收文档

2 · 一次性建设 沿用贵司数字，未作改动

项目	单价（美元）	数量	金额（美元）
基础搭建与存储	9,000	1	9,000
版本上线，基础费用	10,000	1	10,000
PLUS 版本，按站点	1,700	18	30,600
建设合计			49,600

建设费我们完全接受贵司测算，即 **49,600 美元**。未加价一分，且 18 个站点全部按合格 PLUS 版本交付，而非简化版。上线后所有经常性工作单独列示于下，使两笔费用互不混淆。

3 · 月度运维 上线后全部经常性工作

项目	美元 / 月
维护数据库的 AI 工程师（半职）	3,000
验收工作：五个阶段，每阶段三份文档	540
24 小时紧急政策通道的值班保障	400
模型与检索 API，按操作实测计价（见第 6 节）	482
冗余托管、每日备份及 1 小时 RTO、外部监控	120
工具、支持与备用	158
月度合计	4,700

第一年合计：建设 + 12 个月运维

USD 106,000

\$106,000

第一年

第二年

建设费仅收取一次。第一年之后每年仅收运维费 56,400 美元，系统归贵司所有。

4 · 付款

30%	第二阶段 功能验收
30%	第三阶段 灰度验收。贵司指定的两个测试站点（中国香港、美国）已达深度
40%	第四阶段 全量验收（18 个站点，PLUS 版本）
按月	运维费自全量上线起按月结算

按携程标准政策，验收核实后付款。报价未含税。

Ellis Intelligence, Inc. · ELLIS-2026-002

5 · 月费为何需要一名 AI 工程师 依据 2026 年 8 月 29 日实测巡检测算

■ **442** 63% 机器确认一致 ■ **88** 13% 需人工裁定 ■ **153** 22% 链接或页面修复 ■ **19** 3% 重试

每月一次复核，会将每条缓存答案与其官方政府页面重新比对。最近一次运行共重读 702 条：多数由机器确认，无需任何人工；88 条需人工裁定差异；153 条需修复来源链接。

一个月度周期的实测人工工作量（人天）	10.4
每月工作日	21.7

即一个长期的半职岗位 **0.48 FTE**

该岗位需要的是 AI 工程师，而非数据录入人员。工作内容是对机器标记的差异对照官方来源作出裁定、维护核验流水线，并保障 48 小时修正与 24 小时紧急更新的时限。没有这个岗位，数据会逐渐失准，\$6.1 的准确性指标将无法持续达标。上表中的深度检索即机器侧的同一项工作：每次针对一条尚无答案的线路，读取多达十二个政府页面。

6 · 模型的实际成本 线上系统实测单位成本

操作	单位成本（美元）	每月次数	美元
线路判定（尚未命中缓存）	\$0.0106	25,000	\$265
将一条答案与其官方页面比对复核	\$0.0157	2,500	\$39
深度检索：最多读取十二个政府页面	\$0.1184	500	\$59
AI 问答的问题解析	\$0.0018	50,000	\$89
翻译增量			\$30
模型与检索 API 合计			\$482

单位成本依据线上运行系统实测的数据规模，以及 Kimi 公布的费率（输入每百万 token 1.90 美元、输出 8.00 美元）计算。页面文本上限 40,000 字符；本库引用的官方页面提取文本平均 8,354 字符（实时抽样 17 个政府来源）。次数按 18 个站点每月 50 万次需求查询、95% 命中缓存测算；单位成本在任何量级下均成立，故该项随贵司流量变化，而非固定收费。

7 · 参考对照：贵司自有签证产品 vacations.ctrip.com/visa 实时价格，2026 年 8 月 30 日

携程产品	价格（人民币）	美元
美国个人旅游签证 加急 · US tourist, expedited	¥3,699	\$521
加拿大个人旅游签证 · Canada tourist	¥4,188	\$590
日本个人旅游签证 5年多次 · Japan, 5-year multiple	¥1,758	\$248
意大利个人旅游签证 特加急 · Italy tourist, expedited	¥1,288	\$181
韩国个人旅游签证 5年多次 · Korea, 5-year multiple	¥858	\$121
土耳其 180日多次 · Turkiye, 180-day multiple	¥535	\$75

第一年合计 106,000 美元。按携程现售一单美国旅游签证加急服务费 521 美元计，相当于 203 单。第一年之后每年 56,400 美元，相当于 108 单，约每月九单。上表中的每一款产品，底层依赖的正是这个信息库。

8 · 资料来源

- 携程集团邮件提供的 2.1 节成本测算：基础搭建与存储 9,000 美元；上线基础费用 10,000 美元；PLUS 版本约 1,700 美元/站点，共约 18 个站点。
- 携程签证产品价格于 2026 年 8 月 30 日取自携程集团自有消费者页面实时数据，按 7.1 人民币兑 1 美元折算。
vacations.ctrip.com/visa
- 《T站签证信息库建设项目验收交付标准》§4.3（时效与周期性校对）、§5.3（验收文档）、§6.1（量化指标）。
- 线上环境。巡检数据及全部验收指标均可从 Excel 导出文件复核。
